## May ENews from Milwaukee SPE

### Milwaukee SPE Education Night 2022

We had our annual Milwaukee SPE Education/Career Night and dinner on Thursday, April 14th at Waukesha County Technical College. It was great to get together in person with the students, parents and SPE members. We had cancelled the last 2 years events due to Covid.

There were close to 80 Attendees at this year's event. Sixteen display tables showcased area companies and colleges. We recognized our 2020 Milwaukee SPE Educator of the year – Craig Adams from Forest Park Middle School. He gave a presentation on their technical programs they have at his school, including using table top injection molding units. He was assisted by Doug Johnson another instructor at Forest Park.

Vandita Pai Paranjape from Sabic Specialties who leads their sustainability strategy and execution, was our Key Note Speaker. Her topic "Contributing to Net Zero Carbon Goal". This is an important topic with today's companies. Her presentation included mechanical recycling, chemical recycling and certified renewable plastics.

SPE Presented Four \$500 scholarships including the Bob Novak scholarship to four deserving students at WCTC. The college students in attendance were given a chance in a drawing for three \$250 scholarship/grants including the Jack Hill Scholarship. There also was drawing for seven \$25 cash prizes donated by Progressive Components, Omega Tool and Sabic Specialty Products.

Thanks again for all who attended and we look forward to next year's event.

Ray Ciezki  
Milwaukee SPE Education Chairperson

### Craig Adams 2022 Educator of the Year Award

Craig Adams, teacher at Forest Park Middle School in Franklin WI., is the recipient of the SPE Educator of the Year Award. He has been teaching grades 6th-8th Engineering and Technology at Forest Park Middle School since 1986. Craig lives in Merton, WI., and graduated from UW Stout in 1986. Craig is a strong believer in project-based education and has been very successful in providing hands-on projects to his students to optimize learning. He is an avid outdoorsman and a certified hunter safety instructor.

## Interested in becoming an SPE Sponsor?

Sponsoring the Milwaukee SPE Chapter is a great opportunity to get your name out and in front of companies in your field as well as support the SPE chapter. Milwaukee SPE now has three sponsorship level including, bronze, silver, and gold. Each of these includes different add placement on the Milwaukee SPE website, newspaper, and during events. The silver and gold also include registration fees for events. The money from these sponsorships goes towards the continuing operation of the Milwaukee SPE Chapter, to insure we are able to keep functioning as an organization and offering networking and learning events in the field of plastics. Our sponsorship runs from the beginning of August to the end of July the following year. If your company is not a current sponsor, please consider becoming a sponsor for the 2022-2023 year. For our current sponsors, thank you for your ongoing support.
