## Milwaukee SPE E News December 2022

---

### **SPE Milwaukee Finally Gets Back to In-Person Technical Meetings!**

December 1, 2022. Kicking us back off was Greg Osborn, Director of Sales, Transportation – Americas, for Synventive, a group including Synventive. Männer, FOBOHA, Thermoplay, Gammaflux and Priamus .

We had dinner and drinks, and then a technical presentation on hot runners. The talk covered numerous topics such as tip styles, tip heaters, manifold heaters, thermocouples, the pros and cons of different construction options, etc. Greg also covered quoting, design principles, balancing multiple cavities and shear effects, assembly and wiring, and troubleshooting.

The audience mix of processing experts, part design experts, mold making experts and representation from other hot runner manufacturers made for a *classic* SPE-hosted educational experience. The interactive discussion was held at the Western Racquet Club, in Elm Grove, WI.

---

### **September Part Design & Additive Manufacturing Event Was a Success!**

On September 20-21 in Gurnee IL., SPE Chicago, Milwaukee, & PD3 brought Mike Sepe in as the featured speaker for part design along with education on Additive

Manufacturing. The event was well attended and the attendees were fully engaged.

A thank you to Paul Calhoon of SPE Chicago as MC for the event along the main speaker- Mike Sepe and main additive mfg speakers Mike Vasquez- 3 Degrees Consulting, Quinn Gaughan- Fast Radius, and Anthony Scola- Met-L-Flo. Special thanks to our

exhibitors/sponsors: Element Materials Technology, The Madison Group, Chase Plastics, Star Plastics, Polymax, AdvancedTek, HTS International, and SPE Plasti-Van.

## Join Milwaukee SPE January 26<sup>th</sup> at Raised Grain for a chance to catch up with your friends in the industry

Join SPE Milwaukee from 6pm-8pm on January 26<sup>th</sup> for a chance to catch up with your friends in the industry. This will be at Raised Grain at 1725 Dolphin Dr Ste B, Waukesha, WI 53186. Please register here if you can attend. The event will be no charge, you'll just need to pay your own bar tab. Bring a friend, bring a non-SPE member, it will be fun!

Any questions can be sent to Jason Braman at [jbraman@chaseplastics.com](mailto:jbraman@chaseplastics.com). It's been a long pandemic and its about time to get together! We'll see you there.

**Register  
Here!**

## Glenn Beall Technical Article: Part 2

SPE Milwaukee is proud to provide a series of technical articles by Glenn Beall regarding Plastic Product Design For Economical Injection Molding . These articles will describe how to produce higher quality, lower cost parts that work right the first time. After 35 years, well-known plastics part design seminar instructor Glenn L. Beall has retired from presenting live seminars. He has now rewritten his most popular seminar in a format suitable for publishing. These chronological articles will be released in all future Newsletters. You don't want to miss out! Here is the download link to [Part 2: In The Beginning](#)
