E-NEWS

Milwaukee SPE E News for September 2022

Fun, Fun, Fun at the SPE July Golf Outing 2022!!

We had an incredible turnout at our annual golf outing on July 11th as over 200 attended the golf and dinner. Just a slight blast of rain early on before tee-off, but then it was dry with sunshine the rest of the way. The SPE Education Foundation Hole raised over \$2,000.00 and the 50/50 raffle raised \$500.00 for our chapter. During dinner, Ray Ciezki was presented with the SPE Outstanding Achievement Award, which was well earned!

A big thank you to Amy Schermetzler and Jason Braman from our board for organizing and planning this great event. Also, special thanks go out to our beverage cart and hole sponsors.

**Mike Sepe, The Material Analyst
Speaks on Material Selection-
Design, Processing, &**

Performance

And a half-day of Additive Manufacturing from four industry leading Manufacturers - Getting it "Right out of the box"

September 20th-21st, 2022

Holiday Inn Gurnee
6161 W Grand Ave,
Gurnee, IL 60031

Mike Sepe

- Material Selection, Processing, Properties and Performance
- Part Designer, Mold Designer, and Processor Approach to Materials
- Improving Molded Part Performance
- Solving Part Failures
- Myths in the Industry

Mike Vasquez, 3 Degrees Consulting

- AM Materials and the importance of a properly designed and executed material validation testing plan.

Charlie Wood, Fast Radius

- Use of AM for production parts - design for AM, the process, the importance of a quality plan and case studies.

Anthony Scola, Met-L-Flo

- The 7 AM processes as defined by ASTM/ISO

Peter Kootstra, Re3DTech

- Tooling inserts using AM technology

Extra, Extra, Read All About It! Glenn Beall Technical Articles Are Here!

SPE Milwaukee is proud to provide a series of technical articles by Glenn Beall regarding Plastic Product Design For Economical Injection Molding . These articles will describe how to produce higher quality, lower cost parts that work right the first time. After 35 years, well-known plastics part design seminar instructor Glenn L. Beall has retired from presenting live seminars.

He has now rewritten his most popular seminar in a format suitable for publishing. These chronological articles will be released in all future Newsletters. You don't want to miss out! Here is the download to Part I: The Importance of Plastic Product Design. [Download the article here!](#)

Special Invitation!

SPE Milwaukee, Chicago Sections, as well as, the SPE Medical Division invites you to a special night to recognize our new Emeritus Member: Glenn Beall and to Discuss Hot Topics in the Medical Device Industry.
